

Hello Pastor Messmann and Pastor Budd, how are you and your family doing? And how are our church congregations doing? I am writing this message from Malakal. I came here on Feb 3, 2007 for Government Zonal Child Protection Working Group Meeting. Children are being abuse here in many different ways, we are doing these workshop to bring awareness to the community what is acceptable and what is not when it come to dealing with children. We want to let the communities know that children need love, need to be cared for, they need education, and most of all they need to bring up in a Godly environment.

Next thing I will be working on is disabled people, there is no awareness whatsoever. They are even look at as if they are not part of society. I need your continues support and prayer. These are very important issues. I will be here for one week then go back to Juba. I missed home though, I missed all of you, however; I believe with all my heart that this is my calling, this is purpose, this is what the Lord wants me to do. Thank you for all your continued support and prayer. May the grace of our lord Jesus Christ be with members of our church and your family;
Stephen Wiu Bichiok
